# Expert Answer:

---

**SELECT EmployeeID, FirstName, LastName, Salary, DepartmentName,  
StateProvince, CountryID**

**FROM Table**

**WHERE Salary>3000 AND StateProvince="Washington" AND  
CountryID="US"**

**The select statement selects the fields to be displayed if the conditions hit true.**

**The FROM statement selects the table from which the respective entries are to be shown from.**

**The WHERE statement selects the conditions to be checked.**

**The AND statement ensures that all conditions are verified.**

**PLEASE provide a LIKE/UPVOTE since it helps me a lot.**
